Chicago, March 20.—A morning paper Thursday says that suspected of having sought the life of the czar by throwing a bomb at the palace in St. Petersburg more than a month ago, Antonio Siles, late of Kisheven, was taken into custody Wednesday by the Chicago police.

The bomb thrower apparently vanished. The Russian secret police claim to have traced him to New York and then to Chicago where they assert he lived at 646 Austin avenue. Siles was arrested at that address.

Repeated efforts of the police officials to examine Siles were futile. Although the man cannot speak English an interpreter who questioned him in Russian could learn nothing.

Murderer Slipped Up to Bank, Performed His Deadly Work, and Disappeared as Mysteriously as He Had Come—Coroner's Jury on Case.

Information reached this city by telephone Friday of a fearful tragedy near Alachua, which occurred on a lake about five miles distant from that town, and which resulted in the instant death of Charles Thomas, colored, in the presence of his wife and two daughters.

It appears that Thomas, with his wife and daughters, was in a boat fishing, when someone crept stealthily up to the water a short distance from the boat, and, without warning, emptied the contents of two barrels of a gun loaded with buckshot into the man's back.

Thomas fell from the boat into the water, and it was with the utmost difficulty that his distracted companions rescued his body. Fortunately, though a miracle, none of the women were hurt.

The boat was pulled to shore as quickly as possible, but the perpetrator had disappeared as mysteriously as he had come.

The news of the tragedy spread rapidly, and as soon as it reached Alachua Justice Caswell empanelled a coroner's jury which was still in session at a late hour Friday afternoon.

The murder is a complete mystery, and there is no clue, as far as can be learned.

Thomas is the same man who attempted to burn his way out of the Alachua jail while a prisoner there about two weeks ago, which resulted in his being badly burned and the destruction of the building.

### UGHT TO GET BUSY.

Heaps of Refuse from Trimmed Trees  
Standing in Streets.

The Sun does not desire to enter this as a "kick," but for the past few days complaint has been so general regarding the trash and refuse from trimmed trees in the streets, that we feel it is the duty of this paper to call attention to same. For weeks the limbs from trees have been permitted to lay in the streets, much to the discomfort and inconvenience of pedestrians.

The reporter does not attempt to say that the trash gang is not doing its duty, for it has been observed that this gang is always busy; but the trouble possibly comes in lack of facilities, and if this force is insufficient to do the work a special force should be put on for at least a sufficient length of time to clean off the debris.

### AN IMPORTANT RESOLUTION

Passed at the Closing Session of the  
Florida Anti-Saloon League.

At the closing session of the Anti-Saloon League, the following resolution, which will no doubt have a great influence in the coming election, was unanimously adopted by the convention:

"Resolved, That the delegates to the convention of the Anti-Saloon League do hereby urge the members of the local leagues throughout the State, to ascertain the attitude toward prohibition of the various candidates for office, and strive to elect those favoring prohibition, and the enactment of prohibition laws, that the State may be rid of the saloon."

### NEWS OF CITY AND COUNTY CONDENSED

Attention is directed to the change of advertisement of Dr. Waldo's Gainesville Dental Parlors, which appears elsewhere in this issue. Dr. Waldo is making a great reduction in charges for dental work, which cannot help but appeal to those desiring services of this character.

Hon. J. L. Skipper, postmaster at Lakeland and one of the most prominent Republicans in South Florida, was in the city yesterday, having come to consult Hon. Henry S. Chubb, chairman of the Florida State Central Committee, on certain political matters. Mr. Skipper took occasion to pay Gainesville a high compliment on the rapid development of things here, commercially and otherwise. He declares, next to Lakeland, of course, Gainesville is the finest interior city in Florida.

E. L. Ferran, a prominent merchant of Eustis, who has been here attending the convention of the Anti-Saloon League as a delegate from his town, returned to his home yesterday. Mr. Ferran is one of the most extensive, as well as, most successful merchants in Lake county, carrying a large stock of dry goods and clothing. He has been for years identified with Eustis and its interests, and is one of those instrumental in bringing that progressive town to the importance it now occupies.

### REFUGEES TO LEAVE HAITI.

Presence of Warships Allay Fears of Foreign Residents.

Port-au-Prince, March 20.—Consequent upon the decision of the Haitian government to permit the participants in the late insurrection who have asylum in the various consulates, to leave the country unmolested, the French cruiser d'Estrees is preparing to take on board all the refugees in the German, French and Spanish consulates at Gonaives, at St. Marc and Port-au-Prince. The cruiser will take the revolutionists to St. Thomas.

President Nord Alexis has issued instructions in the case of six military officers, including Major Larague, commandant of the crack cavalry corps, who are now under arrest on suspicion of being implicated in the recent conspiracy, that if the facts warrant it, they be taken before a regularly constituted military court for examination.

A courtmartial will decide the case of Major Aurel Madeu, charged with making an attempt against the security of the state and conspiring to assassinate the president. There were no signs of disturbances throughout the city, the presence of the warships in the harbor allaying the fears of the foreign residents.

Port-au-Prince, March 20.—The situation here Thursday continued tranquil. Three other warships have arrived in port, the American cruiser Des Moines, the American gunboat Paducah and the English cruiser Cressy.

## BIG MEETING OF CONFEDERATE VETS

Largest and Most Enthusiastic  
Meeting in Camp's History.

### FIVE NEW MEMBERS ELECTED

Many Committees Were Appointed,  
and the Camp Got Down to Business  
on Business Principles—By-Laws  
Adopted—Memorial Day Plans.

One of the most largely attended meetings of Stonewall Camp, United Confederate Veterans, ever held in the history of the camp, was that of the quarterly meeting, which transpired in the court house in this city Friday morning, more than fifty members of the camp being present.

The meeting was called to order by Commander W. M. Blitch, who said at the beginning how glad he was to see the faces of so many of his old comrades, and glad, also, to note the general harmony and good feeling among them, which reminded him of the days of the '60s, when "the boys" were always ready for a "fight or a frolic," and they were equal to either occasion.

The meeting being called to order, the minutes of last meeting were read by Adjutant J. C. McGrew, and upon motion approved.

The committees on by-laws, comprising J. A. Carlisle, J. D. Matheson and E. C. F. Sanchez, made its report in the form of a typewritten copy of the by-laws, which, with a few slight changes, were adopted, and 200 copies ordered printed.

The question of the observance of Memorial Day was brought up, and it was unanimously agreed to invite Rev. J. B. Mitchell of Orlando, a speaker of note and a true and enthusiastic veteran, to deliver the oration of the day.

Memorial Day (April 26) falling on Sunday this year, it was decided to observe Monday, and at the proper time a suitable program for the occasion will be published.

A reception committee comprising S. H. Wienges, J. D. Matheson and T. L. Boulware, were appointed for Memorial Day.

Judge Horatio Davis of Gainesville, M. C. Chitty of Micanopy and Captain M. E. Stokes of LaCrosse were appointed as an executive committee.

As a relief and pension committee S. H. Wienges, J. D. Matheson and J. A. Carlisle were appointed.

Five new members were elected to membership, as follows: W. H. Gay of Trenton, S. R. Harville, C. C. Fraser and J. Y. Bradley of Alachua, R. H. Ward of Hawthorn.

It is the purpose of the camp to co-operate with the Daughters on a program for Memorial Day, which will be announced as soon as completed.

The camp adjourned until 10 o'clock a. m. Monday, April 27.

### DEATH OF MR. DAIGRE.

Well Known Citizen Passed Away  
Friday—Remains to Louisiana.

This community was grieved Friday morning over the death of Mr. K. Daigre, which sad event occurred at his home, the Commercial House, about 9 o'clock, of tuberculosis, after several months' suffering.

Deceased was born in Iverville Parish, Louisiana, sixty-nine years ago, and about seventeen years ago came to Florida, settling near McIntosh, where he purchased a fine grove. He remained on this property until about two years ago, when, with his wife, he removed to Gainesville, and has made this his home ever since.

While rather unpretentious in disposition and very unassuming, Mr. Daigre made many friends who admired him for his good traits. He was a Confederate veteran, having served faithfully and efficiently in behalf of his country during the Civil War, experiencing active service. He wore upon his lapel always a Confederate cross of honor, which he often declared he prized most dearly among his worldly goods. It was honorably won and honorably worn.

Deceased was a member of the Catholic Church, and the funeral services were conducted at his home at 2 o'clock Friday afternoon, Rev. P. J. Lynch of St. Patrick's Catholic church officiating. The services were well attended, a number of Confederate Veterans and members of the United Daughters of the Confederacy being present, as a last mark of respect.

The remains, which were prepared by Dr. T. E. Thomas, were shipped to Plaquemine, La., for interment, and were accompanied to the train by a detachment of Veterans, as an escort of honor.

Deceased is survived by a distracted wife, who was unable to accompany the remains, and to whom the sympathy of the entire community is extended.

### DEATH OF MR. KENNARD

One of Alachua County's Oldest Citizens Passed Away at Waldo.

One of the saddest deaths to occur in the East End for some time was that of Judge S. J. Kennard, who passed away at his home in Waldo on Wednesday, after a lingering illness of about two weeks.

Deceased was a native of this county, and has been a resident of Waldo virtually all his life, being one of the oldest settlers of that town. He was a man of public spirit, always ready for anything for the betterment and advancement of his town and his community.

Deceased is survived by a widow, three sons, S. J. Kennard, Jr., of Fernandina, T. O. Kennard of Jacksonville and J. B. Kennard of Waldo, and two daughters, Mrs. W. S. Lang of this city and Mrs. L. C. Duane of Waldo, to whom the sympathy of friends is extended.

The funeral was held at Waldo Thursday.

### Funeral of Captain Rice.

The funeral of Captain W. F. Rice, the sad death of whom occurred at Sydney on Thursday, was held at 2 o'clock Friday afternoon, Rev. W. S. Milne, formerly pastor of the Presbyterian church at Micanopy, but now of St. Petersburg, officiating.

The funeral was largely attended by sorrowing friends of the deceased, some of whom went from Gainesville, and many of them accompanied the remains to their last resting-place in Kanapaha cemetery.

## THE MAN AND HIS JOB

By Herbert J. Hapgood.

The first principle in handling men, is to inspire confidence. A man cannot work faithfully for his employer unless he is made to feel a deep and well-deserved respect for him. He must believe in the boss. The captain of industry must be a "captain" in the fullest sense of the word; for it is sometimes easier to keep an army in good spirit than to fill your force of employees with enthusiasm and inspiration.

Your salesmen get discouraged and are almost ready to throw up the whole proposition. You must restore their faith and convince them that they are selling the best line of goods in the world. A hearty hand-shake, or a good slap on the back will often do the trick.

Then the office force will become demoralized. The long strain of inside work commences to tell on them. They lose interest and let the details slide. Every case must be handled in a different manner. Sometimes a severe calldown is the best medicine, but very often a little jolly from headquarters puts everybody on his feet again.

I have known men to boss a job best with a clenched fist or drawn revolver. One foreman whom I know in a Western mining camp has to thrash some big bully periodically in order to maintain discipline in the work gang.

It all depends on the kind of work and the calibre of the men. Make a study of your employees. Work out the problem scientifically and exercise your very best executive ability at all times. The handling of men is an important factor in your business; for their efforts mean dollars and cents to you.

The editor of The Sun has been a resident of Gainesville for 29 years, and never has he seen so little interest manifested in municipal politics. The election occurs on April 14th, and in order to have names printed on the ballots candidates must be certified to the Council not later than March 25th, yet no nominations have been made or petitions circulated for certification. It behooves the taxpayers to "get busy" at once.

F. F. Paulling, the very faithful and efficient County Commissioner from the fourth district, is a candidate for re-election, as will be seen by his announcement in today's paper. Mr. Paulling is one of the best-known and most highly esteemed citizens of Alachua county, and his friends will rally to his support in the approaching primary with a determination to land him a winner.

E. A. Osteen, who has been a faithful and efficient deputy of Sheriff Fennell since the latter's induction into the office, announces himself as a candidate for sheriff in today's Sun. Mr. Osteen is well qualified for the office and would make an efficient officer. He has friends throughout the county who will give him loyal support.

There is a price quoted in one of today's ads which ought to interest you—and gratify you!

## CLEAN STREETS AND PARKS.

We have been asked to point out some of the things that will improve the appearance of our city and make it more attractive, not only as a place of residence but as a haven for tourists. The subject is a fruitful one, for no city in the formation period, as is Gainesville, is perfect either in appearance or in the administration of its offices. Gainesville, however, is peculiarly more fortunate in many respects than many of its sister cities in Florida, in that it has extraordinary natural beauty, as pure drinking water as can be found in the United States, and municipal officers who may sometimes make mistakes but who are honest and sincere in their efforts to give us a government run in the interest of the people, and free from the modern curse of "graft." But purity of purpose in the administration of the affairs of our city, and good water, and natural beauty, are not sufficient to make a city attractive to either the tourist, homeseeker, or investor, if we neglect the important item of CLEANLINESS!

In this latter Gainesville is woefully wanting. Tons of paper, rocks, brick-bats, boards, boxes, trash piles, and other abominations, litter our streets, and visitors with an eye for the beautiful have been heard to say: "Oh, what a pity, that such a beautiful town should be so dirty." And it is a pity, for Gainesville could be the most beautiful town in the Southern States, or any other States, for that matter, if the streets were kept immaculately clean, and more attention was paid to the yards and grass plots. We have known the value of property doubled and trebled by having it cleaned up and beautified, for no man or woman, however sordid, is completely devoid of sentiment. "Cleanliness is next to Godliness," is an old axiom that is always new, and is daily more appreciated, as the human mind is more cultivated and trained along practical common sense lines. The average mind knows now that filth breeds disease, slovenliness, lack of self-respect and injury to character. Also, that filth and beauty cannot go hand in hand. If we would have our town attractive, healthy and beautiful, we must clean it up and keep it clean. If, for lack of means, we are unable to clean all of it, let us clean and beautify those portions that are most prominent, in order that what we do may show to best advantage.

One of the most prominent, and by far the most important, spots in the city is the public school yard, for in it a large number of the children of the city spend most of their childhood. Being trained to take their places in the world as men and women, we owe to them that their surroundings should be clean, orderly, and, if possible, beautiful. If the yard they play in is filthy and trashy, and there is no attempt to keep it in order, these things will most certainly influence them in the direction of habits of disorder and uncleanness, and that purity of sentiment which comes to us unconsciously while in the midst of beautiful surroundings will be lacking. The children themselves would no doubt enter eagerly into any scheme for the improvement of their school yard, and all reasonable rules in that direction that might be made by the principal would be cheerfully obeyed.

The next place of importance is the court house square, which, to the mind of a stranger, will reflect the character of the entire city. When he looks across at the pretty, well-kept court house yard, then up at the gorgeous oaks in all the glory of new spring dress, he has a momentary feeling of admiration for the town, but it passes rapidly when he looks further around and sees the boxes, paper, barrels, excelsior and trash generally that litter the streets in all directions. No doubt he compares it

to the spectacle of a man dressed in a new suit of clothes but with a dirty face, soiled and frayed-out linen, and a battered hat. The merchants could, if they chose, keep their boxes and barrels in their back yards, and could keep receptacles in those same back yards for trash. The persons who, on leaving the postoffice, throw papers, circulars, etc., on the streets to be blown here and there by the wind until they find safe lodgment against the court house fence, or the lee of some building, could just as easily put them into a neat receptacle if one was handy. Such receptacles should be provided, and there should be plenty of them. They cost little, and are worth much. The public would soon learn the lesson of neatness, and especially if the ordinance against throwing trash on the streets should be enforced a few times. Our children should be taught, not only to refrain from throwing trash and paper on the streets, but to pick up paper and carry it to the receptacles provided for it. Many of them would enter into the spirit of the thing eagerly.

There are many other places that might be mentioned, and many suggestions that could be made for improvement, but they will cost a great deal of money, and the city is hampered for lack of money. It will not cost a great deal to keep the city clean, and nothing could be done that would add more to its attractiveness. But the city authorities cannot accomplish it without the aid of the citizens. One man with a cart cannot keep the streets free of paper and trash if thousands are busily engaged in throwing out more, and no man who is amply able to haul away his own trash should throw out great piles of it into the street and let it remain there for weeks, perhaps, until the city, with its limited supply of horses and wagons, can find time to haul it away.

The city has one small park (the barracks lot), and thanks to Mr. Adolph Vidal, chairman of the street committee, and Mr. C. C. Warren, street superintendent, it has recently been put in fair condition. There should be more parks, and while land is cheap they should be acquired. There should be one in East Gainesville and one in West Gainesville. Parks are a necessity, and sooner or later every city will be compelled to have them. Why not be wise, and acquire them now?

In reply to friends of the various candidates as to who The Sun will support for this and that office, we repeat: We will support the candidate who is nominated. This is a Democratic fight, and The Sun, being a Democratic newspaper, has no right to take sides for or against any candidate, so long as we consider the candidate worthy of the office.

A store grows almost imperceptibly—but its advertising must grow perceptibly!

## SHORT STATE ITEMS

Tarpon fishing is just the thing on both the lower East and West coasts.

After serving as postmaster for more than ten years, Postmaster P. T. Cobb of Fort Pierce has resigned.

Great sorrow is felt in DeLand over the death of Hon. Henry A. DeLand, founder of the city. The sad event occurred last Friday at his home in Fairport, N. Y.

The city council of Ocala has dismissed both Marshal Cleveland and Policeman Dean. W. C. Bull was elected the new marshal and John D. Glover a policeman.

A bold robbery was successfully worked last Friday morning at the union station in Jacksonville, when the ticket office was mysteriously visited and robbed of \$1,380 in cash.

J. J. Woolf, for sometime agent of the Atlantic Coast Line at Fort Myers, has left his home and gone to parts unknown, leaving no trace as to his whereabouts. His wife and children are unable to account for his disappearance. He was last seen at Key West.

It is reported on good authority that within the next 30 days locomotive No. 12 which was used at Knight's Key before the road was completed, will be shipped to Key West to aid in the work at this end. With the aid of a locomotive and an adequate number of cars the road between here and Pine Key can be completed in a few months.—Key West Citizen.

For some reason or another the fish in the Caldwell pond are all dying. Some say it is because the pond is going dry and others that it is because it has been dynamited. Some of these fish are very large, and weigh as much as sixteen pounds. Perhaps as many as twenty years ago, when there was so much in the newspapers about the German carp as a food fish, and the Government was distributing them in all parts of the country, a bucketful was sent to some unknown party in Ocala. As the day on which they arrived was bitterly cold the express officials were fearful that they would freeze and turned them over to Hon. C. M. Brown and the writer, and we placed them in the Caldwell pond. We are a little surprised to know that they have been growing and multiplying all these years, for we thought

### NATURE SPARES

#### The Stricken Rose From Grief.

What a fortunate provision of nature it is, that deprives the rose of mental suffering; for how poignant would be its grief to discover, in the height of its blooming glory, that a canker fed at its heart, and that its beauty and fragrance were doomed forever. Nature always spares the suffering; she is a veritable store-house of pleasing rewards, for those who seek her aid. In the years gone by failing hair and grayness have cast a gloom over the lives of thousands of young women, but thanks to the investigations of scientists the true cause of hair destruction is now known to be a germ or parasite that burrows into the hair follicles. Newbro's Herpicide absolutely destroys this germ, thus permitting the hair to grow as nature intended. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich. Two sizes—50 cents and \$1.00.

### The Badge of Honesty

Is on every wrapper of Doctor Pierce's Golden Medical Discovery because a full list of the ingredients composing it is printed there in plain English. Forty years of experience has proven its superior worth as a blood purifier and invigorating tonic for the cure of stomach disorders and all liver ills. It builds up the run-down system as no other tonic can in which alcohol is used. The active medicinal principles of native roots such as Golden Seal and Queen's root, Stone and Mandrake root, Bloodroot and Black Cherry bark are extracted and preserved by the use of chemically pure, triple-refined glycerine. Send to Dr. R. V. Pierce at Buffalo, N. Y., for free booklet which quotes extracts from well-recognized medical authorities such as Drs. Bartholow, King, Scudder, Coe, Ellingwood and a host of others, showing that these roots can be depended upon for their curative action in all weak states of the stomach, accompanied by indigestion or dyspepsia as well as in all bilious or liver complaints and in all "wasting diseases" where there is loss of flesh and gradual running down of the strength and system.

The "Golden Medical Discovery" makes rich, pure blood and so invigorates and regulates the stomach, liver and bowels, and through them the whole system. Thus all skin affections, blotches, pimples and eruptions as well as scrofulous swellings and old open running sores or ulcers are cured and healed. In treating old running sores, or ulcers, it is well to insure their healing by applying to them Dr. Pierce's All-Healing Salve. If your druggist don't happen to have this Salve in stock, send fifty-four cents in postage stamps to Dr. R. V. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y., and a large box of the "All-Healing Salve" will reach you by return post.

You can't afford to accept a secret nostrum as a substitute for this non-alcoholic, medicine of known composition, not even though the urgent dealer may thereby make a little bigger profit. Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules, easy to take as candy.

The Baby Incubator at Dixieland Park in Jacksonville recently turned out a graduate that will attract much attention throughout the State. This little baby is Walter McLin of Tallahassee, grandson of Commissioner of Agriculture B. E. McLin, who is one of Florida's most popular and prominent citizens. Several weeks ago this interesting babe arrived at the incubator, weighing a little over two pounds. It came in a special car, and its physician and nurses were alarmed because they doubted that it would live. This baby was discharged, weighing seven pounds and three ounces, and the perfect picture of health. Dr. Fischel, Dr. Haverly and the nurses gave close attention to the McLin baby, and their work speaks volumes for the efficiency of the system. The mother of the baby is the happiest woman in Florida, and was in Jacksonville several days before the child was discharged. She is enthusiastic over the incubator, and believes her bouncing boy will achieve distinction in Florida because of the method in which his life was made possible.

Savannah, Ga., March 20.—Perfect weather conditions and a crowd of spectators larger than any previous race day, among them the governor of the state, as a special guest of the city, marked the opening of the last day of the auto race meeting here under the auspices of the American Automobile association. The event of the day was the 300-mile race for the Savannah challenge trophy, valued at \$1,000, in which there were eight starters.

### NEGRO VOTE AS AN ASSET.

Recognition to be Demanded from Republican Leaders.

A movement of great significance to the Republican party has been started by leaders of the colored voters of the United States. It aims at the election of one colored delegate to the Republican National Convention from each of twenty-seven close Congressional districts in six Northern States, and also the choice of solid colored delegations from twelve Southern States, where, it is asserted, the colored people have been ignored by the white Republicans. These latter representatives of the negroes are to demand recognition on the ground that the black voters constitute the bulk of the Republican party in the South.

In many States Foraker clubs have been started. They are chiefly composed of negroes, and are not intended so much to boom the Senator for the Presidential candidacy as they are to applaud him for attacking the discharge of the negro battalion, without trial, on the accusation of complicity in the Brownsville disturbance. These clubs are working against Secretary Taft, who, as head of the war office, is held to be immediately responsible for this injustice to the black troops. As nearly all the negroes are probably Republicans, the following latest table will be of decided interest to the Republican campaign managers at this moment. It gives the number of black males of the voting age, according to the census of 1900, in States which have recently or always been carried by the Republicans in Presidential canvasses:

Connecticut	4,576
Delaware	8,374
Illinois	29,762
Indiana	18,186
Kansas	14,695
Maryland	60,406
Nebraska	2,298
New Jersey	21,474
New York	31,425
Ohio	31,235
Rhode Island	2,765
West Virginia	14,768

As, under no possible circumstances, can there be any such tidal-wave majority in those States in 1908 as there were in 1904, the negro vote may prove to be a very important factor in the campaign. The chances are that the big Republican majority of 1896 and 1900 will not be repeated under any condition this year. The close vote of the earlier canvasses is likely to be seen in nearly all the Republican States in 1908. Previous to 1896 New Jersey had been going Democratic pretty constantly, and so had Delaware, Maryland and West Virginia. Maryland is mentioned here because it was carried by the Republicans in all three of the latest Presidential canvasses, although in that of 1904, owing to Gorman's tricky law, Roosevelt received only one of its electoral votes. Previous to 1896 New York had been swinging from one party to the other in succeeding Presidential election. It was carried by the Democrats in 1892, as were Connecticut, Illinois and Indiana.

It is easy to see that a revolt among the black voters of the country in 1908 might turn the scale in sufficient States to endanger the election.—Leslie's Weekly.

## TWO LYNCHINGS IN TAYLOR COUNTY

Negroes Taken From Jail at  
Perry and Shot to Death.

PERRY WAS SCENE OF TRAGEDY

Victims Were Charged With Murder.  
One Had Attempted to Kill Jailer.  
The Men Securely Tied to Posts and  
Then Riddled With Bullets.

A dispatch to The Times-Union from  
Perry, Fla., under date of March 19th,  
says:

"Between 1 and 2 o'clock this morning a mob of citizens quietly went to the county jail and secured Richard Smith and Will McMillan, both negroes, and carrying them to a secluded spot just outside of the town, tied them securely to posts and riddled their bodies with bullets. Leaving them in that position they quietly left the scene.

"The bodies were found early this morning but there is no clue as to who the mob was composed of.

"Richard Smith was charged with the murder of a white man a few days ago at Blue Creek and Will McMillan was awaiting trial for the murder of another negro.

"McMillan was the same negro who attempted to kill W. R. Carter, the jailer, and did not succeed in making his escape, being captured later by Marshal Hawkins. It is not believed here that many members of the mob, if any, were residents of Perry, as there was no cause for them to take the law in their own hands."

I lost flesh and was all run down, and a year ago had to abandon work entirely. I had three of the best physicians who did me no good and I was practically given up to die. Foley's Kidney Cure was recommended and the first bottle gave me great relief, and after taking the second bottle I was entirely cured." Why not let it help you? J. W. McCollum & Co.

## NATURE AND A WOMAN'S WORK

LYDIA E. PINKHAM

Nature and a woman's work combined have produced the grandest remedy for woman's ills that the world has ever known.

In the good old-fashioned days of our grandmothers they relied upon the roots and herbs of the field to cure disease and mitigate suffering.

The Indians on our Western Plains to-day can produce roots and herbs for every ailment, and cure diseases that baffle the most skilled physicians who have spent years in the study of drugs.

From the roots and herbs of the field Lydia E. Pinkham more than thirty years ago gave to the women of the world a remedy for their peculiar ills, more potent and efficacious than any combination of drugs. Lydia E. Pinkham's Vegetable Compound is now recognized as the standard remedy for woman's ills.

Mrs. Bertha Muff, of 515 N.C. St., Louisiana, Mo., writes:

"Complete restoration to health means so much to me that for the sake of other suffering women I am willing to make my troubles public.

"For twelve years I had been suffering with the worst forms of female ills. During that time I had eleven different physicians without help. No tongue can tell what I suffered, and at times I could hardly walk. About two years ago I wrote Mrs. Pinkham for advice. I followed it, and can truly say that Lydia E. Pinkham's Vegetable Compound and Mrs. Pinkham's advice restored health and strength. It is worth mountains of gold to suffering women."

What Lydia E. Pinkham's Vegetable Compound did for Mrs. Muff, it will do for other suffering women.

## Thousands Have Kidney Trouble and Never Suspect It.

Prevalency of Kidney Disease.

Most people do not realize the alarming increase and remarkable prevalence of kidney disease. While kidney disorders are the most common diseases that prevail, they are almost the last recognized by patient and physicians, who content themselves with doctoring the effects, while the original disease undermines the system.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes. You may have a sample bottle and a book that tells all about it, both sent free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. ## All the Gold IN GEORGIA Could not Buy-

Roding, Ga. August 27, 1906.  
Messrs. E. G. DeWitt & Co.,  
Chicago, Ill.

Gentlemen:—In 1897 I had a disease of the stomach and bowels. Some physicians told me it was Dyspepsia, some Consumption of the Lungs, others said consumption of the Bowels. One physician said I would not live until Spring, and for four long years I existed on a little boiled milk, soda biscuits, doctors' prescriptions and Dyspepsia remedies that flooded the market. I could not digest anything I ate, and in the Spring 1902 I picked up one of your Almanacs as a poor emaciated Dyspepsia wreck will grasp at anything, and that Almanac happened to be my life savor. I bought a fifty cent bottle of KODOL DYSPEPSIA CURE and the benefit I received from that bottle ALL THE GOLD IN GEORGIA COULD NOT BUY. I kept on taking it and in two months I went back to my work, as a mechanic, and in three months I was well and hearty. I still use a little occasionally as I find it a fine blood purifier and a good tonic. May you live long and prosper. Yours very truly, Q. H. CORNELL.

## AN INGLORIOUS WOUND.

The Hard Luck That Was Handed Out to the Old Veteran.

On one of the volunteer ranges in the north of England is a well known old Irish sergeant, who has charge. It may be mentioned that he went through three wars—the Crimean, the Indian mutiny and the Chinese—and during the whole of that time never received a single wound.

Old W., as he is called, occasionally acts as a marker at the targets, and his utter recklessness has become a proverb.

He has been known to walk forth from behind the mantelet without the slightest warning and touch up a bullseye which did not quite satisfy him or to note the exact position of a shot.

At all remonstrances he would sniff contemptuously.

"Me be shot? Me?" he would ask. "Why, I've bin through three war-rs and was niver shot yet. Pah! Phwat's a bit o' lead flying through the air?" And he would assume an air of disgust.

It actually occurred, however, at last, and he was shot through the shoulder.

For a moment, as frequently happens with rifle shots, such is their terrible force, he did not know he was struck; then when he observed the blood streaming down his sleeve he commenced to walk down the range, right in the line of fire.

It was seen that something was wrong, and they hurried to meet him. As he did so he tottered and had to be carried.

"Shot!" he groaned, with a look of shame. "Shot and by a Saturday afternoon soldier!"—London Tit-Bits.

## QUEER TEACHING.

A Glimpse of the One Time Methods in Scotch Schools.

To the work of supervisor of schools in Scotland Mr. John Kerr devoted a number of years. In his book, "Other Memories, Old and New," he has set down some amusing illustrations of the unintelligent way in which the school work was sometimes conducted.

The revised code of education which was introduced in 1862 made provision for nothing but reading, writing and arithmetic in their barest forms. There was no suggestion about grammar, geography, history or intelligence in any study. Explanation of the reading lesson was not demanded, and therefore it was neglected in some of the schools. The following is an example:

The lesson was one giving an account of a clever dog which had rescued a child from drowning. It was said that the dog was caressed by the parents of the child. I asked what was the meaning of the word "caressed," and the answer came at once, "Made of fond led."

On referring to the list of words at the top of the page I found the explanation given was, "made of, fondled."

Wishing to find out if any child in the class had got a glimmering of the meaning, I went from top to bottom and got from every child nothing but "made of fond led," pronounced as four words, to which they attached no meaning whatever.

The teacher was surprised that I was not satisfied with the intelligence of the teaching.

## A Tenor's Rebuke.

Roger, the great French tenor, a sensitive soul, was prone to take offense at any slight, whether intentional or not. On one occasion he was engaged for 1,200 francs to sing at the house of a wealthy financier. Roger sang his first song magnificently, but no one paid him the slightest attention, and the guests continued to talk their loudest. Presently the host thought the time had come for another song and sent for Roger. He could not be found and that evening was seen no more. Next day there came a note from him, accompanied by 1,500 francs. The note ran something like this:

"I have the honor to return the 1,200 francs which I received for singing at your function, and I beg leave to add 300 francs thereto for having so greatly disturbed the conversation of your guests."—Chicago Record-Herald.

## A Literal Youth.

"Why, Johnny," said Mrs. Muggins, "what are you doing here at home? Is Willie's party over?"

"None," blubbered Johnny, "but the minute I got inside the house Willie's father told me to make myself at home, and I came."—Harper's Weekly.

## In Washington.

"I made a glaring error today," sighed the cabinet lady.

"How's that?" inquired the departmental lady.

"I glared at a woman I should have ignored completely."—Louisville Courier Journal.

## An Inspiration.

Mrs. Knicker-Henry, why did you leave your shoes on the stairs last night? Knicker (dazed, but inspired)—English custom, m'dear. Left 'em to be blacked.—Puck.

## Albert W. Gilchrist

Candidate for Governor  
of Florida

No faction, machine or ring, brought him out. He came out as a candidate alone and single-handed. He will be glad to receive the support of the corporations, of the anti-corporations, the prohibitionists and the anti-prohibitionists, of the local optionists, the Christians and the Jews and of the Gentiles, the "Publicans and sinners." He would even accept the support of the Pharisees.

The corporations cannot do without the people, and the people cannot do without the corporations. Neither should be allowed to oppress the other. Capital is organized, labor should organize.

The license tax law licensing each little enterprise should be amended in order that taxation should bear more evenly.

Article XIX of the Constitution provides for Local Option. The qualified electors (not the Governor) approve or veto constitutional amendments. He is not on the "recently constructed band wagon."

He commenced life working in Quincy, Florida, at a salary of \$15 per month, and boarded himself. He has himself been a hard-working, struggling man and he knows what it means in others. He has never married, he has always had obligations. His life has been spent more in thoughtful consideration of other people than of himself. He feels sure he will be elected "if he gets enough votes." He does not propose to trade off a single office. There is honor in being Governor. If it is tainted with dishonor he does not want the office.
